- Enter your tickets
- Collect symbols
- Earn entries

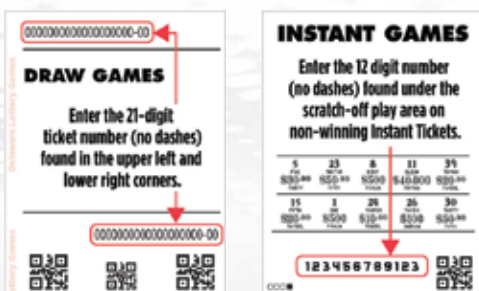

Monthly Cash Prizes

Register

- Create an account by visiting delottery.com. You may download the Collect 'N Win app for Android at delottery.com or for iOS at the Apple App Store.

Enter Tickets

- Scan the barcode on your eligible non-winning Draw Game with the app. Or you can manually enter your non-winning Draw Game ticket number or Instant Game entry code by visiting delottery.com. See the images below for the location of the ticket number/entry code.

- You can enter up to 50 eligible non-winning Delaware Lottery Game tickets per day. Draw tickets are only eligible for entry for 45 days from purchase date. Check to see which games are eligible for each month.

Collect Symbols

- Each eligible non-winning Delaware Lottery Game ticket (scanned or entered manually) will randomly award 2, 4, 6, 8 or 10 symbols that will be applied to a game card. Each player will have four active game cards.
- There are six symbols on each game card. Once a player fills a game card, an entry will be automatically generated, and that card will be cleared to collect more symbols.

Earn Entries

- When all six symbols have been collected on one game card, each player will automatically earn one entry into the monthly drawing that coincides with the entry period in which it was submitted.
