Frequently Asked Questions (FAQs)

What is Double Play?

Double Play is an add-on feature that gives players another chance to match their Powerball numbers in a separate drawing. Double Play has a fixed top cash prize of \$10 million in every drawing.

How much does it cost to add Double Play?

Players can add the Double Play feature to their Powerball ticket for an additional \$1 per play.

How does Double Play work and when will the Double Play drawing occur?

Double Play works in the same way as the main Powerball drawing, with five numbers from 1 to 69 and a Powerball number from 1 to 26 selected at random.

The Double Play drawing is held after every Powerball drawing on Monday, Wednesday and Saturday. The first drawing will take place on Monday, June 15th, following the Powerball drawing.

Will there be two different sets of numbers on my ticket?

No. You will only have one set of numbers, even if the Double Play option is added. The numbers selected for the main Powerball drawing are also entered into the Double Play drawing.

Two sets of numbers will be drawn randomly, one set of numbers for the Powerball drawing and another set of numbers for the Double Play drawing.

Are Powerball tickets with the Double Play feature eligible to win prizes in both the Powerball drawing and Double Play drawing?

Yes. Powerball tickets that include the Double Play® feature are eligible to win prizes in both drawings. **Powerball winning numbers shall not be used to determine Double Play prizes. Double Play winning numbers shall not be used to determine Powerball prizes.**

Does Double Play affect Power Play?

No. Double Play is an add-on feature to the Powerball game and does not replace or alter the Power Play feature. Double Play prizes cannot be multiplied or increased by the Power Play multiplier.

Will the Power Play feature apply to prizes won in the Double Play drawing?

No. The Power Play feature will only apply to non-jackpot prizes won in the Powerball drawing. Double Play prizes cannot be multiplied or increased by the drawn Power Play multiplier.

Can a Powerball ticket include both the Power Play and Double Play add-on features?

Yes. One Powerball ticket can include both add-on features for a total cost of \$4 per play.

(See page for sample tickets and purchase examples)

What are the chances of winning a prize in the Double Play drawing?

Double Play utilizes the same numbers selected for the main Powerball game (five numbers from 1 to 69 and one number from 1 to 26), therefore, the chances of winning a prize in the Double Play drawing have the same chances of winning as the Powerball drawing.

Will my old playslips still work?

No. Old playslips will not work and must be replaced with new ones. The new playslips have an updated layout to include the Double Play option on the front, and a full description of the new feature on the back. New playslips are available at all retailers.
